

Conservation Systems, Inc.

csiworldwide.com | 5850 Lakehurst Drive | Suite 120 | Orlando FL 32819-8386 USA

CSI is a full service manufacturer's representative (see our list of products below). Ours is a whole systems approach, with designs engineered specifically to maximize energy efficiency and optimize long-term performance — and to conserve your money!

We offer products from the following categories: Gas-fired hydronic heating boilers, hot water heaters and pool/spa heaters. Gas-fired hot water boosters. Pre-fabricated gas venting, grease ducts and chimney systems. Mechanical draft systems. Radiant floor heating systems. Electronic boiler controls. Genuine factory OEM replacement parts on the shelf.

We are authorized to represent the following products and manufacturers:

AirJet UL-Listed double-walled Type "B" gas venting, triple-walled 2100°F fireplace chimney, double-walled Type "L" oil venting with a stainless steel liner, and Flexjet continuous 2-ply drip-free chimney liner.

Exhausto Mechanical draft systems for gas-fired cooking and heating appliances, laundromats and mechanical rooms, and chimney fans for wood-burning fireplaces and pizza ovens.

HeatWeave UL-Listed thermostatically-controlled electric floor-warming mats for installation under tile, stone, or laminates, and UnderFloor mats for installation between floor joists for any type of floor. WarmWire single-point-connection heating elements offer even more installation possibilities.

Laars Efficient and reliable gas-fired water heaters, hydronic heating boilers, commercial pool and spa heaters, hot water storage tanks and electronic controls. New Pennant, Rheos and Mascot systems represent the cutting edge in water and space heating technologies. We also stock many Laars OEM replacement parts.

Lattner Gas-fired and electric steam and hot water boilers, SteamEase steam room generators, blow down separators, and automatic aftercoolers.

Munchkin Exceptionally durable and reliable, the Munchkin is a modulating, ultra-high-efficiency (up to 92% AFUE) boiler that adjusts its firing rate to match the actual heating requirements of its environment.

Protech Patented FasNSeal silicone-free AL29-4C stainless steel direct vent gas venting (single- or double-wall) for Category II, III, & IV heating equipment and acid-resistant stainless steel chimney liner for gas- or oil-burning appliances.

Schebler Air- or fiber-insulated single- and multiple-wall stainless steel pressurized chimney and exhaust systems and pre-fabricated heavy duty grease ducts.

Sellers Gas-fired steam and hot water boilers, gas-fired water heaters, Quick Heat instantaneous water heaters, deaerators, boiler feed systems, and pumps.

SuperStor High quality stainless steel storage tanks, indirect-fired water heaters, electric water heaters and oil-fired water heaters.

Tekmar Automatic microprocessor-based setpoint controls, boiler/domestic hot water controls, building controls, and heating/HRF controls from Canada.

Voyager Compact, highly efficient gas-fired stainless steel water heaters and hot water boosters for water/space heating and commercial/institutional dishwashing systems.

WattsRadiant Onix, E-PexB and WaterPEX polyethylene tubing, fittings, and pre-assembled HydroControls for radiant hydronic heating systems and potable water systems.
