## Balancing Baffle BBF

### Description

The BBF Balancing Baffle is a ruggedly built single blade type balancing baffle with factory mounted, permanently locking hand quadrant, and is designed specifically for manual balancing of round vent connectors for appliances. The baffle can be locked in a fixed position to meet mechanical codes.

The BBF is designed to be used with stack with Positive Pressure stack. The BBF is rated for temperatures up to 1000°F (538°C). The flange is 1/2" and fits most standard flanged stacks.

The balancing baffles should only be used with EXHAUSTO mechanical draft systems.

### Material

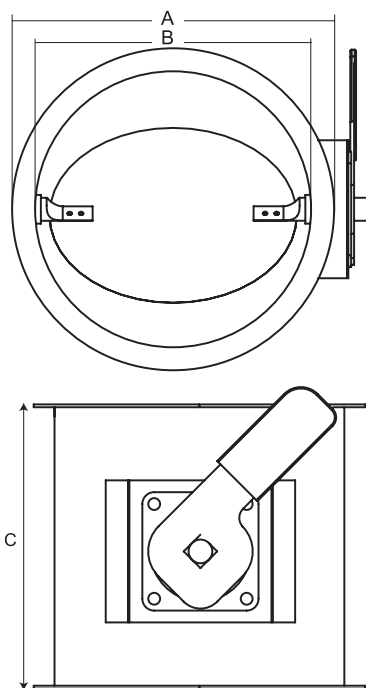

The shell and blade are made of stainless steel.

The shaft is 1/2" (13mm) round galvanized steel. The hand quadrant position can be locked with a whiz-nut.

Bearings are stainless steel.

### Warranty

2 year factory warranty.
